INTRODUCTORY

IN presenting this, the seventh edition of the Alton City Directory under our management to the Public, we beg to acknowledge with thanks the favor shown by the business community toward our publications and assure them that it will be our endeavor to make each succeeding issue better than the previous ones. Alton has always been a conservative City, nothing in the "Boom" line, but the past two years has seen a better growth with more improvements than in any period of the same time in many years, and we confidently look forward to greater results in the next two years. The population, including territory immediately tributary to the city is at least 28,000.

We trust this volume will meet with the requirements of all our patrons.

Respectfully,

The McCoy Directory Co.
